## District Conventions of U.F.A. Been Fixed

Dates for the various district conventions of the United Farmers of Alberta were decided upon at a meeting of the executive held in Calgary on the 24th inst. This was in accordance with the resolution passed at the last meeting of the board of directors, authorizing them to take this action.

The delegates who will attend the conventions from the various locals of the U.F.A. and U.F.W.A. will be elected at a proportion of 1 to 10 of the membership. Mr. Higginbotham, in commenting on the convention, said that there has been a demand to have the conventions wide open, but in discussing this point it was deemed advisable to have the expression of opinion from their own people, the farmers. They feel they can co-operate more effectively as a group, rather than a conglomeration of men. They do not mean to be exclusive, and when they have formed up they will at once turn their actions toward co-operation with other organizations.

Bow River and East and West Calgary will hold joint conventions for everything, except when they nominate candidates, and then they will meet as ridings.

Following are the constituencies, with date of place of meeting:

Macleod—Macleod, May 27-28.  
Lethbridge—Lethbridge, May 29-30.  
Bow River—Calgary, June 3-4.  
E. and W. Calgary—June 5-6.  
Red Deer—Red Deer, June 10-11.  
Victoria—Camrose, June 12-13.  
Battle River—Wainwright, June 17-18.  
Strathcona—Wetaskiwin, June 19-20.  
E. Edmonton—Edmonton, June 24-25.  
W. Edmonton—Edmonton, June 26-27.

At this meeting of the executive objections were raised by some of the members against the practice of the machine companies having all their notes come due from the farmers on October 1. It was pointed out that in almost every case this was a great inconvenience to the farmer. The executive decided that the best way to handle the situation was for the farmers to act themselves in the matter and take a firm stand as to the date of the maturity of the notes they signed, and also to try and get their own locals to stand behind.

## Camping Accommodation at Edmonton Fair

Edmonton Exhibition grounds have been enlarged by the addition of sixty-five acres. This section is being improved with roads and paths; a new woman's building is contemplated, and many improvements are under way for the summer exhibition, July 7-12. In this new section a beautiful grove of shade trees has been set aside for the use of visitors from out of the city who wish to motor to the summer exhibition, bring their families and camp on the grounds. Arrangements will be made to have an office located conveniently, where tents, mattresses, cots and tables may be rented at a nominal charge. Campers will be required to furnish their own bedding and dishes. It is expected that this will not only solve the problem of securing rooms during exhibition week, but induce many to attend the exhibition for the entire week and bring their families. Manager Stark will gladly furnish full information to intending campers.

## Summer Schools for Returned Men

Arrangements have been completed for the summer courses for returned soldiers. This summer session will open at the University of Alberta, Edmonton, on May 19 and will continue until September 12. The purpose of this summer school is to furnish assistance to men whose studies have been interrupted by the war so that too much time may not be lost in getting into classes again. In some cases, men who had left school before enlistment are anxious to resume their studies. Provision will be made for these men also. Returned men everywhere are invited to take advantage of this school.

The school will be so organized to give as far as possible individual instruction. Thus a man may enter with almost any attainment and make as rapid progress as he is capable of. Any returned man who is interested in improving his education, with the idea of continuing in some institution in the fall, should write the Department of Education, Edmonton, at once.

Returned men only will be admitted to these courses. The University dormitories and boarding facilities will be available for men who may attend. A rate similar to that prevailing during the regular session will be allowed, namely \$30 per month for both room and board.

The Department of Education will furnish tuition in these courses free. The session will close in time for those qualified to enter the Normal School or proceed with University work. All likely to attend should advise the Department at once, that all courses required may be included in the plans.

## Editor Glad to Make Rate Under Old Conditions

One man who called in a country newspaper office recently was firm in his idea that the editor was in the profiteering class because the price of the paper had been raised to \$2 a year.

In looking up his subscription account it was found that when the price was \$1 he had paid his subscription with eggs one year and the editor was glad to offer him the paper for \$1 again, provided he brought in the same amount of eggs. In this case it was nine dozen. But he refused and preferred to pay the \$2.

In looking over the books of the "good old days," it was found another man had presented a case of honey for two years' credit; another, a dressed turkey, in lieu of the dollar.

Any editor who made such exchanges in the past, he says, is more than willing to duplicate the offer on the same basis.

HAROLD BINDLOSS

WARD, LOCK & CO., LIMITED

(Continued)

The bottom of the hollow was roughly level, but part was covered with small, stunted trees, many of which had been uprooted and had fallen across each other. In the open spaces, rocks and boulders rose out of an inch or two of snow. It was plain that there was no chance of Daly's alighting uninjured there. One of the men had brought a train hand's lantern, and they followed the curve of the trestle, which rose black and ominously high, against the moonlight. It was not very dark among the trees and the beam of the lantern flickered across the rocks and fallen trunks, but they found nothing, and presently came to the ice, where the light was not needed.

A dark colored object could be seen at some distance on the snow, but nothing broke the smooth white surface, and the party stopped at the edge of the water, which looked black and sullen as it rolled past, streaked by lines of foam. There was a belt of ice on the other side, but it was bare.

"Must have gone plumb into the river," said one. "We'd see him if he'd come down where it's frozen."

"Unless he was able to crawl up the bank," somebody suggested.

"I guess that's impossible," another replied, scraping the snow away with his boot. "See here, it's hardly two inches deep; nothing to soften the blow. Besides, anybody falling through the trestle would strike some of the cross braces or stringers."

The man who had brought Foster touched his companion. "Nothing doing here. We'll stop at Green Rock and you can raise a posse of ranchers and look round tomorrow. I reckon you won't find anything."

They went back and when the train had started the man sat down opposite Foster in the smoking compartment.

"We'll probably want your evidence," he said. "What's your address?"

Foster noted that he did not ask his name. "Perhaps the Hulton Manufacturing Company, Gardner's Crossing, would be best. I'm going there now."

The man nodded meaningfully. "That will satisfy me. On the whole, it's lucky the fellow shot at you, and Hulton told us how you stood. He didn't miss by much; there's burnt powder sticking to your cheek."

XXXII  
Featherstone Apologizes

Three days afterwards, Foster entered the office of the Hulton Company, where the head and treasurer of the firm awaited him. It was late in the evening when he arrived, but the private office was lit with the softened glow of machinery and rumble of heavy wheels. Otherwise it was very quiet and cut off by a long passage from the activity of the mill.

Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, Just Eye Comfort. At Your Druggists or by mail 60c per Bottle. For Book of the Eye free write Murine Eye Remedy Co., Chicago.

Hulton gave him his hand and indicated a chair. "You have got thinner since you took your holiday and look tired down," he said. "Well, I reckon we all feel older since that night last fall."

"I do," said Foster, and added, "The mill seems to be running hard." "She's going full blast. We've had plans for extension standing over until I could give my mind to them. I may be able to do so soon, and expect to consult you and Featherstone. In the meantime, I got your telegram and another that to some extent put me wise. But I want a full account, beginning when you left."

Foster told his story and when he stopped Hulton pondered for a minute or two. He somehow looked more human than on Foster's last visit; his stern vindictiveness was not so obvious, but Foster thought he would demand full retribution. Then he said:

"You are keeping something back; I reckon you haven't taken these chances on my account. There's something behind all this that concerns you—or your partner—alone. Well, I guess that's not my business."

He paused and resumed in a curt, businesslike manner: "Daly's tale is plausible and may be true, but I have my doubts. Anyhow, I'm not going to believe it, because that doesn't suit my plans. We'll have Walters tried for murder."

"Although you admit he may be innocent!" exclaimed Foster. "It ought to be enough to charge him with trying to kill Featherstone and stealing your bonds. You have no evidence to convict him of the other crime."

Hulton smiled. "I don't care two bits if he's convicted or not. I want to clear my boy's name and put you into the witness box."

"But you can't make me adapt my story to fit your charge, and the defending lawyer would object to Daly's account as hearsay and not evidence. The judge would rule it out."

"I guess so," Hulton agreed. "For all that, it would have some effect, and the judge couldn't rule it out before it was heard." He knitted his brows and looked hard at Foster. "I'm going to prove that Fred was robbed and was not the thief, and though I don't think Walters will be convicted, he must take his chance. He was one of the gang that caused my son's death, and when he tried to kill your partner knew what he was up against."

Foster thought this was frontier justice and urged another objection. "After all, the matter's in the hands of the police. You can't dictate the line they ought to take."

Percival, the treasurer, smiled, and Hulton answered with some dryness: "That's true, in a way. But I have some influence, which will be used for all it's worth. Anyhow, I've got to be consulted. If it hadn't been for my agents, the police wouldn't have made much progress yet. However, we'll let this go. It may interest you to know that Daly's gone for good. Read him the night letter, Percival."

It is usual in Canada to allow lengthy telegrams, called night letters, to be sent at a very moderate charge when the lines are disengaged after business hours, and the treasurer picked up a form. The message related the careful search for Daly's body, which had not been found. The snow for some distance on both sides of the river was undisturbed; there was no sign that an injured man had crawled away, and if this were not enough, no stranger had reached any of the scattered ranches where he must have gone for food. Daly would not be found until the ice broke up.

"I expect you're glad the fellow can't be brought to trial," Hulton remarked, looking hard at Foster.

"I am," said Foster quietly. "Hulton made a sign of understanding and there was faint amusement in his eyes."

"Well, you have a good partner. I like Featherstone; he's a live, straight man, and if he had trouble in England, has made good here. But he has his limits; I reckon you'll go further than he will."

"No," said Foster. "I don't think you're right, but if you are, I'll take my partner along with me, or stay behind with him."

"What are you going to do now?" Percival asked.

"Stop at the Crossing and see about starting the mill."

Hulton nodded. "I guess that's the best thing. When you have got her started, come and see what we want. I think that's all in the meantime."

Foster left them and began work next day. He wrote to Lawrence, telling him of his plans, but got no answer for a week, when a telegram arrived.

"Come out if you can leave the mill. You're wanted here," it ran.

Foster was puzzled, because he thought the summons would have come from Lacy if Lawrence was ill. Yet the latter knew he was occupied and ought not have sent for him unless he was needed. On the whole, he felt annoyed. Lawrence, who was sometimes careless, should have told him why he was required, and he could not conveniently leave the mill.

## After Five Years Of Heart Trouble

Mrs. Brewer Turned to Dodd's  
Kidney Pills

Now She Is Telling Her Friends Who  
Advised Their Use the Good,  
Dodd's Kidney Pills Have Done.

Imrie, Alta., April 28th. (Special).—Advised by her friends to use Dodd's Kidney Pills for heart trouble from which she had suffered for five years, Mrs. Marie Brewer, well-known and highly respected here, is telling how much she benefitted from the treatment.

Heart trouble is nearly always caused by defective kidneys, which fail in their work of straining the impurities out of the blood. The work of the heart is made too hard when it has to propel blood thick with impurities to all parts of the body. The result is, of course, weakness and disease.

That Mrs. Brewer's trouble came from her kidneys is shown by her symptoms. "I suffered from rheumatism, gravel, stiffness of the joints, backache and headache," she states. "My sleep was broken and unrefreshing. I was nervous and my limbs swelled. My skin itched and burned at night. It was after a doctor had failed to cure me I tried Dodd's Kidney Pills. I must admit they did me a lot of good."

## Shorthorns for Cross-Breeding

Shorthorn Blood a Decided Advantage in Winning Premier Honors

The value of the Shorthorn for crossing on other breeds is well known, and a large proportion of prize-winning steers in the selections for grades and crosses at our leading shows, carry Shorthorn blood in their veins.

Crossing the Hereford and Shorthorn has produced some of the most noted herds in the Panhandle country of Texas. See "Shorthorn Cattle," by Sanders).

Perhaps the most noted cross is that of the Shorthorn with the black polled cattle of Scotland, the result being the so-called "prime Scots," which have been favorites for a great many years with both farmers and butchers in Great Britain. This cross has a growthiness and readiness to fatten which pleases the cattle feeder and swells his bank account. No other breed has proven equal to the Shorthorn for crossing with the Angus and Galloway.

Unfortunately for the Shorthorn, it does not stamp its color upon its progeny when crossed with other breeds to the extent that the Hereford, Aberdeen-Angus, and Galloway impress their color. In this way the Shorthorn loses a great deal of the credit which is its due, when cross-breeds are upon exhibition. For example, at the 1918 International Exhibition in Chicago, the grand champion earload were advertised as Hereford, because they had the Hereford color, but they carried a strong infusion of Shorthorn blood which was a decided advantage to them in winning premier honors. Also, the group of three steers winning first in the grade and crossbred specials, were black and hornless, but their sire was a Shorthorn bull, and they owed much of their excellence to this fact.

Though he is not a good advertiser from the standpoint of transmitting his color, the Shorthorn bull transmits the excellent qualities of the breed to a marked degree, and effects improvement wherever he is used.—G. E. Day, Sec. Dominion Shorthorn Breeders' Assn., Guelph.

## Dethronement of Royalties

Berlin. — A German professor figures out that the abdications and dethronements in Germany include 278 persons. Bavaria leads with one king, one queen, fifteen princes, sixteen princesses, five dukes and one duchess. Prussia has sent 33 royalties into exile including the emperor, empress, twenty princes and 11 princesses.

## France Aims at Sea Trade

Paris. — Whatever the amount of indemnities which France will receive from Germany, French financial and commercial leaders have begun to recognize that other sources will have to be drawn upon to restore the vitality of the nation. The French government, accordingly, has launched a gigantic scheme for the development of the French ports and preparations are under way for the improvement of waterways and the construction of a large merchant marine.

## Spring Stock Sale

Good Prices For Fat Steers and Calves Realized

The sale of fat stock is now a fixed feature of the spring show at Edmonton, Alberta. Feeders can convert their effort and care into cash and the packers are living up to a tacit obligation to offer prices equal to the quality of the goods.

A university champion steer was the highest priced beef, bringing 32½¢ a pound from the Swift Canadian Co. Other animals sold for 26 cents and 20 cents a pound, while none was sold for less than 17½ cents a pound.

Sixteen calves were auctioned after the heavy beef realizing up to 21¢ a pound.

The commercial hogs were sold at a flat rate of \$20.50 a hundred pounds.

## Extend Exhibition Buildings

Regina, Sask. — The city council has accepted the report of the commissioners concerning extensions to the buildings of the industrial and agricultural exhibition association. This means that a new winter fair building will be erected at a cost of about \$120,000. The summer exhibition this year will be on a more ambitious scale than before.

## LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

Take no chances! Move poisons from liver and bowels at once

Mothers can rest easy, after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what ails your little one— if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

## Farm Help Needed

Moose Jaw, Sask. — About 2,000 men are required in connection with spring work on the land of the province. The employment offices have 667 unfilled applications for men, and with the near approach of seeding this number will increase very largely.

## Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetite poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the 1st remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. J. Bunyan, Pilot Butte, Sask., writes:—"I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak, and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the floor without trembling all over. I had hot flushes and fainting spells."

When I was on the second box of your Heart and Nerve Pills, I began to sleep.

I am never without them in the house, and highly recommend them to all who suffer with their heart."

Milburn's Heart and Nerve Pills are 50¢ a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## To Increase Elevator Capacity

Saskatchewan Co-operative Elevator Company to Meet Rapidly Increasing Growth

The two and a half million bushel capacity terminal elevator which was opened at Port Arthur at the head of the Great Lakes last year by the Saskatchewan Co-operative Elevator Company, is already proving inadequate to meet the rapidly increasing growth of the business of this farmers' organization.

To the plant as originally built a year ago the Saskatchewan farmers have already added a hospital elevator, for the treatment of off-grade grain, with a capacity of 650,000 bushels, the only public hospital elevator at the head of the lakes, into which the first load of grain was taken a few days ago. It is now proposed to meet the rapidly increasing demands made on the company's terminal facilities by construction work which will give to the terminal storage warehouse an added capacity of 2,000,000 bushels. Plans have been approved for this addition which will involve an expenditure of \$500,000.

IN ANEMIA

## THE BLOOD

(BY LEE HERBERT SMITH, M. D.)

## AFTER INFLUENZA AND HARD WINTER COLDS.

After an attack of the grip or pneumonia, or even a hard cold, the blood is left thin, watery, and one is said to be anemic. Instead of the blood cells being round, as in diagram "A," they become irregular, as in "B." When you feel weak, nervous, or the skin breaks out in pimples, eruptions or boils, and you feel "blue" and without any snap or energy, sometimes hands cold and clammy, there is usually a large decrease in the red or white blood corpuscles and one should build up with some good blood-builder and tonic.

You can put iron in your blood and the cells become round and red, losing the irregular shape, by

taking a good iron tonic, called "Irontic," put up by Dr. Pierce, and sold by most druggists. This "Irontic" is compounded of a soluble iron, nux and herbal extracts. With this you gain in vim, vigor and vitality. Instead of pale cheeks, tired and worn out before the day is half done, after taking "Irontic" your cheeks will have color, you will feel strong and vigorous and ready for work.

Or if you like a good alternative and herbal tonic, such a one can be obtained at any drug store, favorably known for the past fifty years as Dr. Pierce's Golden Medical Discovery. This is made from the wild roots and barks of forest trees and without the use of alcohol.

## Didsbury's New Hail Insurance Society

50-50 Mutual Hail Insurance Society of This Town

This bill was introduced by Mr. H. Atkins, member for this constituency. After many fierce and stormy battles, lead by James Weir (Non-partizan) of Nanton and a few of the opposition leaders the bill was passed by a large majority on the last day of the Legislature. The fact that Mr. Weir opposed this bill has been the subject of a great deal of comment by many of the farmers of Alberta, as he has been a very strong supporter of U. F. A. movements, and favored everything in the way of co-operation for many years, and why he attacked this strictly co-operative and mutual society is somewhat of a conundrum to many people. The members opposing the bill fought on the ground that it was in opposition to the present Municipal Hail Insurance scheme, which does not seem creditable, as they only insure up to \$8.00, while many farmers desire much more insurance per acre, particularly when grain prices are so high; and if they did not have a mutual society to place same in, they would have to insure with the stock companies, thereby being deprived of the benefit of the mutual system, which, if it works out as well as our Western Mutual Fire Insurance Co., should be a great saving of money to the farmer. We only hope that the new hail mutual insurance will have the same high standard of success that the Western Mutual has enjoyed.

Since the passing of the bill last week the provisional directors' meet-

ing was held and the company organized, and is now ready for business. The officers are as follows:

H. B. Atkins, president, Didsbury  
H. E. Pearson, 1st vice-president, Didsbury.  
R. J. Rolles, 2nd vice-president, Three Hills.  
Parker Reed, secretary and manager, Didsbury.

J. L. Brown, treasurer, Didsbury  
Directors:  
Arthur Young, Macleod.  
John Cussack, Empress.

Mr. E. E. Freeman attended the organization meeting and looked after the legal end of the business.

The Board was unanimous in electing Mr. Atkins president, believing that the honor was due him after his able defence of the bill on the floor of the Alberta Legislature. Mr. H. E. Pearson, 1st vice-president, was also the unanimous choice of the directorate on account of his reputation as an organizer throughout the Province of Alberta, and his many insurance agent friends in the Province will be pleased to hear of his appointment.

R. J. Rolles, 2nd vice-president, is very favorably known in Three Hills district, and many other points as a man of sterling character and fair dealing.

As for Parker Reed, secretary-manager, the organizer of the company, we need scarcely mention him. His reputation in the insurance business in Western Canada, let alone Alberta, needs no comment.

Mr. Brown, late of the Credit Foncier office, Edmonton, will arrive at Didsbury on May 1st to take up his duties as treasurer.

## Canadian Citizenship

A problem which has long confronted Canada, and which it has been the aim of all governments, Dominion and Provincial, for the past quarter of a century and more to solve, has been how to secure and retain population. Governments in the past have, unfortunately, devoted more attention and spent more money in endeavoring to secure population than they have to retaining that population when secured, and more particularly to retaining in Canada our own Canadian born.

With enormous unsettled tracts of land only awaiting settlement to become productive and wealth-producing, the Dominion government adopted a free homestead policy, created a most extensive immigration department, and spent millions in advertising and other propaganda to induce people in all countries to come to Canada. For years these efforts met with little success, and the recurring decennial censuses revealed the fact that Canada was not even retaining its own natural growth in population.

Naturally, but nevertheless unwisely, governments at Ottawa and in some of the provinces, both Liberal and Conservative, in their efforts to secure immigrants neglected to exercise care in the matter of quality of new Canadian citizens and devoted their energies to obtaining quantity. This led to the granting of exceptional privileges to various sects and groups of people, and conferring upon them exemptions from the discharge of national duties which all British and Canadian born subjects were called upon to fulfill. Exemption from military service was granted; special privileges in regard to language, education, and peculiar religious beliefs and other national customs were freely given, and the right to live in isolated communities apart from other citizens was not only admitted, but even encouraged.

As a result of these policies, Canada has received thousands of people who claim, and have a legal and treaty right to claim, special rights and privileges which are denied to Canadian born citizens. Even before the Great War thoughtful Canadians, anxious about the future welfare of their country, were becoming seriously alarmed over the resultant situation, and it only took the Great War, with all it demanded of patriotism, sacrifice and service on the part of Canada and its people, to arouse the whole nation to the danger which threatened its future if these policies were persisted in and Canada be-

came the home of numerous and ever increasing groups of unassimilated races adhering strictly to the language, customs, passions and prejudices they brought with them from foreign lands.

It is no use merely lamenting over the mistakes of the past. At the time these policies were adopted and put into effect they were approved by parliament and a majority of the Canadian people. Nor is it right to blame these non-British born people. Canada invited them to come here, and of her own free will granted them special rights and privileges in the event of their coming. As a nation we must honorably live up to the agreements we then made and the pledges we gave.

But all such agreements and undertakings should be terminated forthwith, and should not apply to any future immigration to this country. From this time onward Canada's policy should be absolutely against granting special privileges on conferring special rights on any individual or class of individuals. "Special privileges to none" must be our watchword. All Canadian citizens should enjoy equal rights and equal privileges, and should be called upon to assume equal responsibilities; there should be no exceptions. Furthermore, all residents of Canada should, while they are residents of this country, be Canadians pure and simple and nothing else, without special privileges, exemptions or favors of any kind.

Every resident of Canada, whether he be Canadian or British born, or of alien birth, should be expected and required to render full and loyal service to Canada at all times, in the emergency of war as well as during the happy times of peace. At the same time all present alien residents who are loyal and sympathetic to Canada and law-abiding citizens should be treated as Canadians. Because of their nationality they should not be treated harshly or unjustly. And the loyal, sympathetic law-abiding among these people constitute, without question, the vast majority of their number. But those who are disloyal, whether aliens or British and Canadian born, should be deported or forced to be law-abiding.

Any immigrant to Canada who is unwilling on entry to take an oath that he subscribes without reservation to all the obligations of Canadian citizenship as they may be determined from time to time by the proper authorities, and that he asks for no special consideration by reason of his language, his religious faith or his national customs, or who entertains any belief or renders allegiance to any foreign potentate or organization or is bound in any manner whatsoever to disregard the law of Canada, should be denied admission to Canada.

Canada still needs and must have population. We need quantity, it is true, but above all we must have quality, and if we cannot have quality with quantity then quantity must be sacrificed. Canada can better afford to wait than make the mistake of filling up her unsettled areas with people who are not willing to become real, out-and-out Canadians. Canadian citizenship must be a prize to attain and value; not something to be given away at bargain counter rates in order to secure immigration. The mistakes of the past must never be repeated.

## RHEUMATISM

## CAN BE CURED

The Trouble is Rooted in the Blood and Can Only Be Cured Through the Blood

In the days of our grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. In those days there were thousands of rheumatic cripples. Now medical science understands that rheumatism is a disease of the blood and that with good, rich, red blood any man or woman of any age can defy the trouble. Rheumatism can be cured by killing the poison in the blood which causes it. For this purpose the blood making, blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. In proof of Dr. Williams' Pink Pills to cure this trouble, Miss Jennie Stockdale, Hall's Bridge, Ont., says: "Two winters ago I was taken with a bad attack of rheumatism, and was in bed for over two months, most of which time I could not sleep or enjoy rest day or night. The trouble also affected my nerves, which were very bad. I tried several remedies but did not get any help from them, and then, acting on the advice of a friend, I decided to try Dr. Williams' Pink Pills. I soon felt that the pills were helping me, and after taking eight boxes I am glad to say I was able to go about again as usual, and am now enjoying the best of health with plenty of good, rich blood which makes me feel like an altogether different person. I earnestly advise those suffering from rheumatism, nervousness and kindred troubles not to delay using Dr. Williams' Pink Pills as, like myself, I am sure they will find a cure through their use."

You can get Dr. Williams' Pink Pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Settlers for North Country

Edmonton, Alta. — There is a very extensive movement of settlers and stock into the north country. During the past week parties from Saskatchewan, Manitoba, Ontario, Nebraska, Iowa and other points have passed through here on their way to the Peace River and Grande Prairie districts. In most cases they are taking considerable live stock with them, which would indicate that they are settlers that are familiar with the type of farming most successfully followed in those districts.

## Boys' and Girls' Clubs

J. G. Rayner, director of boys' and girls' clubs at the University of Saskatchewan, reports a great deal of interest taken in the formation of boys' and girls' clubs in different parts of the province. There are now nearly 3,000 boys and girls enrolled in the province and new clubs are being formed nearly every week. There will be four contests this year, pig raising, poultry raising, potato growing, gardening and canning. Only boys and girls of the ages of ten to fifteen are enrolled, this taking in a larger number of boys and girls who have left school.

## BOTS AND WORMS

The above is a true photograph of a horse's stomach. No wonder our horses are poor and weak. BOTS ARE KILLING HORSES EVERY DAY by eating the inner membrane from the stomach, and in some cases they eat holes thru. You can remove every bot and worm if you wish, with BOT & WORM EXPELLER. It's in powder form, and you mix it with the feed. It's absolutely harmless. Horse owners write they have removed from 500 to 1000 bots from one horse with BOT & WORM EXPELLER. Now is the time to rid your horses of bots. The larger they get the more dangerous they are. They will soon commence to leave the stomach and work back into the intestines, and will feed from the intestines until the latter part of July. At this time they will pass from the body upon their own accord, but thousands of horses will die from having their intestines perforated by the bots, as they gradually pass from the body. In this case it will mean death. Send for this remedy today. Don't delay. Price postage prepaid, \$2.00 per can, 3 for \$5.00, 5 for \$8.00. Your orders will be filled promptly.

## Food Value of Milk

There is undoubtedly no food so essential to the development of mankind as milk. First, it is the only food which man can take from infancy and produce growth to maturity. Second, milk if taken in liberal quantities is the greatest disease resisting food found in the entire category of foods; and third, it is one of the most economical of all foods. Milk is still the cheapest animal product on the market.

Paris, Oct.—"About three years ago I was in bed and suffered severe pain. The doctor said I had gall stones, but his medicine did not help me. A neighbor had been taking 'Favorite Prescription' and it had benefited her so much that she urged me to try some of hers, and that first dose helped me so much that I sent at once for a bottle. I was very much surprised at the prompt relief the medicine gave me after the doctor had failed, and I have never had such a spell since, but whenever I feel the least bit run-down or in need of a tonic I take the 'Favorite Prescription' again for a few days. It has never failed to restore me to perfect health."—Mrs. Elizabeth Brown, 4, O. Box 752.

## V. C. Heroes of the War

During the past four years of the war no fewer than 474 Victoria Crosses have been awarded for deeds of valor. In the first year of war 83 Crosses were awarded, and the second year furnished 78. With the enormous growth of the British fighting forces in all the theatres of war the number increased to 145 in the third year, and there was another rise to 168 in the fourth year. Compared with such a record the 182 V. C.'s for the Indian Mutiny, 11 for the Crimean War, and 78 for the South African War seem insignificant, but in comparison to the number of troops engaged the Crosses awarded during the last four years have been fewer than in previous wars.

## Takes Hotel Linen

Swiss Proprietors of Places in Foe Lands Complain Bitterly

Swiss hotel keepers who have hotels in Germany are very much annoyed by the way in which the German authorities have just requisitioned the hotel table and household linens. One Swiss, who has a large and flourishing hotel in Frankfurt, told the World that the Germans have just requisitioned 70 per cent. of his hotel, house and table linen in that city.

"We are getting the same treatment as the German hotelkeepers," he said. "I was paid two-fifths of the pre-war price of my linen, which, of course, I can never replace, even at the old price, let alone at what they have promised to pay me. I did not get cash for the stuff, but a kind of 'I.O.U.' which, I suppose, will be made into cash some day. There is not any linen at all in Germany, and the stuff being requisitioned is used for the wounded for bandages, and for small children, hotelkeepers have told visitors during the big fair time that they must bring their own sheets when they stop the night."

"When asked about trade, he said: 'We are doing a very big trade and served tea to 300 people every afternoon, too. At least it is called "tea," though I'm sure I can't tell you what it is really—some herb or other gathered by the German school children in their free time. One of the great troubles we hotelkeepers in Germany and Austria have to deal with now is the enormous number of boots stolen in hotels, when put out to be cleaned. When I was in Berlin last week a hotel was visited by one of these boot snatchers, who cleared off with every pair of boots put out to clean, and then left very early in the morning before even the cleaner was up. The row those victims made was awful. Not a visitor in the hotel but had his boots stolen. They have sued the hotel owner for damages, and as these boot robberies are getting to be every day events, even in good hotels, the German tribunals are now deliberating as to whether or not the hotel proprietors are responsible. The question is now being discussed with great zest in Germany, which used to be so honest that you might have left your pocket book outside the door and found it untouched in the morning. But the war has changed all that. Thieves flourish all over Germany in a way that alarms the police greatly. I should have my business in Germany ruined if the police there knew I had been talking about the country.'

## Not Easy to Rob

Stately Swan Can Put a Spurt on When Required

Inland lakes and water holes bounded by swamps are the favorite nesting places of the Australian swan, says a correspondent in the Sydney Bulletin. On the still water they construct a huge raft of air-filled reeds which, with rushes and grass piled upon it, would weigh tons and is sufficiently buoyant to support the weight of a man. In a basin-shaped hollow on top, from ten to fifteen large white eggs are laid, to guard which from raids of the swamp hawk, the owner of the tenement has a woful time. On Black Lake, near Bibbenluke, N. S. W., I once watched persistent efforts of the burglar to secure for himself an omicron. He hovered watchfully above until the swan dived under the water for food. Then he swooped for the nest. It was then I learned that the usually slow and stately swan can put a spurt on when required. With long neck angrily outstretched, she shot over the surface of the lake with the speed of a torpedo. There was a whirlwind of flappings and a drift of feathers through the air. Then a much bedraggled hawk, corkscrewed aloft, and the trumpeters along the lake blew a great rally for the lady.

## Waste Good Food

Alien Loggers Refuse to Eat Warm-ed Over Food

Considerable attention is being paid on the Pacific coast at present to the subject of food extravagance in the logging camps. Evidence has been secured that shows that the loggers, a large majority of whom are aliens exempt from military service, will not work unless provided with the very best food available and that these gentry turn up their noses at a warmed-over dish. In view of the stringency of the rules and regulations issued by the Canadian food board, and which the ordinary citizens are endeavoring loyally to carry out, public indignation is strong that no attempt has been made to deal in a similar manner with the logging camps. Imperial munition board camps included. A cook in one of the Vancouver Island camps said of conditions there: "Three pails of absolutely good food are thrown away after every meal, nine pails a day, and of this quantity, not over two pails could be regarded as legitimate for the garbage tin. All the rest is thrown away because of the rule that food is not to be served on the table a second time."

## VICTIMS OF LA GRIPPE

Left Weak, Disheartened and An Easy Prey to Other Troubles

A Nova Scotia Man Tells How He Found New Health and Strength

If you have had an attack of la grippe, or Spanish influenza you are not out of danger until your blood is restored to normal.

Influenza leaves behind it weakened vital powers, thin blood, impaired digestion, and over-sensitive nerves. In this condition the system becomes an easy prey to deadly pneumonia, bronchitis, nervous prostration, rheumatism and even consumption. Ask anyone who has had an attack of influenza what their present condition of health is and most of them will answer "Since I had the grippe I have never been really well." This general feeling of weakness will continue until the blood is built up again, and for this purpose nothing can equal a fair treatment with Dr. Williams' Pink Pills. From first to last these pills make new, rich, red blood which reaches every organ and nerve in the body, and through this weak, despondent victims of influenza are transformed into cheerful, healthy, happy men and women.

Among the many victims of la grippe who proclaim the value of Dr. Williams' Pink Pills is Mr. Amos Kaulback, of Petite Riviere, N. S., who says: "I was taken down with a severe attack of la grippe, or influenza. After a time the early symptoms of the trouble left me, but I did not regain my usual strength, and I had always been a strong man. There were times when I felt I could hardly crawl about, and I was so run down I could scarcely go about my business. I continued taking medicine but it did me no good. Then I found the trouble was affecting my digestion and the disagreeable feeling from this added to my general misery. I was finally advised to take Dr. Williams' Pink Pills, and I decided to try them. I had only been taking the pills a few weeks when I found my strength returning, my appetite improved, and still continuing the use of the pills a few weeks more found me restored to my old-time vigor. I can most strongly recommend Dr. Williams' Pink Pills to all who have passed through an attack of influenza, as a safe medicine for renewing their strength."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Dickens Could Have It

A bookseller advertised for a porter for his bookshop. Among the applicants was an Irishman gifted with more muscle than wits. He walked into the shop and glanced about rather uncertainly. Finally his eyes rested on a big notice suspended high above the door over a table covered with books:

"Dickens' Works All This Week for Sixteen Shillings."

This announcement at once inflamed the applicant's temper. "O! came in to git the job," he shouted to the proprietor; "but O! I'll not care for it. Dickens kin wurruk all the week for sixteen shillings if he loikes. O! I'll not. Ye'd better kape Dickens."

And out he strode.

## Model Workers' Houses

Wonderful Model Dwellings for Artisans Erected in Rome

In answer to a plea for the "nursery school," a correspondent, writing to the Scotsman, points out that at least in one country in Europe ideal home and attention for the little ones are provided. "I refer," he continues, "to the wonderful model dwellings for artisans erected in Rome in pre-war days by Signor Falmo, engineer and social worker who, with a limited liability company in Rome—over 60,000 persons. The dwellings consist of large blocks built round a square, with gardens, and a large green in the inner quadrangle. All are fitted with electric light, steam heating, and hot water. Stringent regulations as to cleanliness are enforced, and so all are kept fresh and airy. Good bathtubs are installed, for which a small charge is made, and many household arrangements which space prevents me from quoting. For the needs of the over-worked mother and the little ones from 3-6 years of age a nursery school with mistress and assistants is provided on the premises, and teaching given on the Montessori method. Attendance varies from 40-70. Medical care and skilled nursing are given free of charge to the little ones. The rental is about \$2 per month for each room, and houses are of 2, 3 or 4 rooms. The system is run on co-operative lines, and is a sound business concern. Of its priceless value in the uplifting of the workers, educationally, morally, and physically, words fail to express."

## Josh Billings on Milk

"Your note on Josh Billings," writes a subscriber to the New York Outlook, "reminds me that while a young college student I heard Josh Billings deliver his lecture 'On Milk.' He had placed on the platform table a pitcher and a glass. As soon as he was introduced, he poured milk from the pitcher into the glass, took it up, looked at it, and said: 'I have seen several articles on milk; I have read some facts written on milk; but the best thing I ever saw on milk was cream.' Then he drank it and went on with his lecture. He did not mention or refer to milk in any way again. His lecture consisted of an unrelated collection of pithy sayings which held his audience to the end."

## What She Was Doing

I found a blooming bride one day bending with a stern and severe air over a day-locking volume.

"What are you reading?" I asked. "An excellent work," she replied, "called 'Happiness in Marriage.'"

"What advice," I said, "does it give to wives?"

"I don't know," she answered, "I'm reading the advice to husbands."

## Sorry She Was Married

"And when you told him I was married," said the girl who had jilted him, "did he seem to be sorry?" "Yes," replied the other, "he said he was very sorry—although he didn't know the man personally."—Tit-Bits.

## Ingram's Milkweed Cream

Two Sizes—50c and \$1

No ordinary emollient can compare with Ingram's Milkweed Cream. For it is therapeutic and curative in effect as well as softening and cleansing. Used daily it keeps the complexion free of blemish, tones up the delicate tissues, and holds the youthful color and freshness all women want to retain. There is no substitute, no "just as good."

Ingram's Velveola Souveraine Face Powder (50c) is a delicate fine-textured powder that blends and harmonizes with the complexion. It conceals little defects in the complexion, banishes oiliness and shine and yet can scarcely be detected. There is a complete line of Ingram's toilet products, including Zedenta for the teeth (25c.) at your drug store.

## A Picture

With Each Purchase

Each time you buy a package of Ingram's Toilet aids or Perfume your druggist will give you, without charge, a large portrait of a world-famed motion picture actress. Each time you get a different portrait so you make a collection for your home. Ask your druggist.

## With the Canadian Army In Siberia

[By Captain (Rev.) W. E. Dunham, Vancouver, in the 'Red Triangle News']

Compared with the battlefronts of former days, the long-stretched line of the western front was enormous; but compared with the front in Russia, the western line is seen to be short. Four thousand miles of "front!" Not all, indeed, the scene of fighting or even the habitat of troops, for the actual point of contact with the Bolsheviks is a very limited area in front of Omsk, but the line of the Siberian Railway itself about 4,000 miles long, constitutes the Allied front. Along this line lies the Canadian Expeditionary Force working in conjunction with the armies of England, United States, France, Japan and the Czecho-Slovaks. To an onlooker it appears that the object of the expedition is similar to that of a sheriff sent in to hold an estate until certain obligations are met. The "estate" consists of huge stocks of war supplies at the port of Vladivostok, and it would seem as soon as a stable government, able to enforce its authority, is established, the entire Allied force may be withdrawn. The country is in a state of chaos, and military control seems to be the only possible form of government until the people settle down. To leave the country in its present condition would be disastrous, not only to Russia, but to Europe as a whole. Under the present regime the country is more or less peaceful; the balance of power is preserved and no group of Soviets can be organized to disturb it.

### CANADIANS IN SIBERIA.

The C.E.F. is not an aggressive fighting force, though it could become that in a moment. Its work is to take its share of occupying Siberia and to maintain order—to be police. This necessitates depot and barrack life, with an occasional brush with the enemy at the "front"—often many miles away from the base.

Everything possible is done for the comfort of the men. Naturally, since the signing of the armistice many of them have become restless and are anxious to get home, so it is increasingly important that they should always be kept occupied and amused. To this end hockey teams have been organized, a league also, and keen competition is the order of the day. Four Y.M.C.A. officers, with a staff of twelve non-commissioned officers and men, do their utmost for the welfare of the troops. Canteens, lounge rooms and cinemas have been greatly appreciated. The great enemy to be fought is that of social disease, which the Bolsheviks are deliberately trying to spread within the Allied armies. Distraction and amusement are nec-

essary, and so well does the Y.M.C.A. provide this that General Emsley has recommended that the present establishment be trebled.

The "Y" has a large and well-appointed "godown" (warehouse) in Vladivostok, stocked with canteen supplies and equipment. A cinema theatre has been opened in the centre of the city, free to the troops; a good lounge room and canteen have been established. These canteens are repeated at every depot. Where the troops are in barracks an officer is in charge of

the "Y" work. When I left, in January, Captain Archer was stationed at Second River (about ten miles from Vladivostok) and Captain Paterson at Garnastal Barracks. Sergt.-Major Gregory is in the very heart of the danger zone in Omsk, and Captain Graves assists Captain Smith at Vladivostok.

### MILITARY DISPOSITION.

It may be of interest to describe the military control of the country. There are large camps of troops at Vladivostok, and small companies all along the line of the Trans-Sibe-

rian Railway to Omsk, the last important city on this side of the Ural Mountains where there are troops. The Hampshire and Middlesex regiments form part of the force here, which spread out to a fan-shaped front. When our secretary first went to Omsk, it took six weeks to go, but the traffic has been taken over and better service is given. However, there is not enough rolling stock to handle the traffic of this vast country.

### CANADIANS COMFORTABLE.

So far as our men are concerned,

they are comfortable and well quartered. Being so far away from home induces restlessness and a state of mind which can only be described by the words, "fed-up." But everything possible is done for them. Under the aggressive leadership of Captain E. N. Smith, the "Y" is putting up a big battle against the contaminating influences of the country and for the men's own good. That they appreciate all that is being done is evidenced by the number of times one hears the saying, "Good Old 'Y'—always on the job."

# Help the Y.M.C.A. Finish its Work For Soldiers

## Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old 'Y'" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle Campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

The Y.M.C.A. will keep its chain of Service unbroken till the end.

### For Our Men Returning

For the soldiers and their dependents, returning from Overseas, we have provided as follows:—

1. A Red Triangle man on board every ship when it leaves Great Britain, with a full equipment of games, gramophones and records, magic lantern, literature and writing materials. Where possible, also a piano or an organ. Lectures, concerts, sing songs, instruction re Government repatriation plans, and Sunday Services.
2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including coffee stalls, with free drinks, free eatables, cigarettes, candies, etc.
3. Red Triangle men on every troop train to provide regularly free drinks, eatables and cigarettes, organize games and sing songs, and furnish information.
4. Red Triangle free canteen service, information bureau, etc., at each of the 22 Dispersal centres in Canada.
5. Red Triangle Clubs in the principal cities of Canada in the shape of large Y.M.C.A. hostels to furnish bed and board at low rates and to be a rendezvous for soldiers.
6. Seventy-five Secretaries to superintend Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.
7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A. furnished.

In addition to our work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Siberia, as well as the work of special secretaries in Northern Russia, Palestine and Poland.

### For Canada's Manhood

The Reconstruction program of the Y. M. C. A. includes the following vitally important developments:—

1. An increased service to 300,000 teen-age boys in the Dominion—the development of Canadian Standard Efficiency training; Bible Study groups; summer camps; conferences; service for High School boys, for working boys, in the towns and cities; for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.
2. Inauguration of Y.M.C.A. work in the country, and the smaller towns and villages lacking Association buildings and equipment, on a plan of county organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in co-operation with the churches.
3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the factory buildings, organizing the factory workers of our cities by meetings, entertainments, games and sports.
4. The establishment of the Red Triangle in isolated districts where lumbermen, miners and other workers hold the front trenches of industry.
5. Besides these main fields of increased activity for 1919, we have to provide for enlarged work among railway men, college students and for our campaign to encourage physical and sex education. Under all our work we place the fundamental foundation of manly Christianity.

## Y.W.C.A.

For the wives and children Overseas, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A., which is caring for the soldiers' women folk, and their little ones on the long journey, from Liverpool to Canada, and is also extending its work for Canadian girls.

For their sake also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens, our teen-age boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our mines and forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the canvasser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

## Please Note:

We are not asking for money to carry on our work Overseas, with the Army in Great Britain, France or Belgium. That work will continue at its maximum for some months, financially provided for by the liquidation of our assets Overseas, and will not terminate till the last man has sailed for home.

## New System for Water Supply

Regina, Sask. — Moose Jaw is moving to secure a new source and system for its water supply. At a public meeting there recently it seemed to be the general opinion of the members of the board of trade that the only solution for a permanent water supply was going to be the Saskatchewan river, and that a system could be completed for \$4,000,000.

## Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn stops soreness at once, and soon the corns dry up and lift right out without pain.

He says freezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

## Hungarian Soviet To Fight Rumania

Government Issued Appeals to Public to Arm Themselves

London. — Bela Kun, Hungarian foreign minister, accompanied by other members of the government, has left for the front, according to a Budapest despatch to the Exchange Telegraph company, to take command.

Budapest. — The news of a Rumanian advance has caused intense excitement. Following upon vehement speeches at meetings of the soldiers' and workmen's council the government issued a series of impassioned appeals to the public to arm themselves and complete the revolution, which is declared to be in great peril.

## Catarrh and Dyspepsia

Undermined the System and the Nerves Gave Way—Hospital Treatment Failed—Read How Cure Was Effectuated

Preeceville, Sask., April 29. — This letter will give you an idea of what you may expect from this combined treatment for catarrh. While Dr. Chase's Catarrh Powder affords relief from the stuffed-up air passages, headaches and annoying symptoms of catarrh, the Nerve Food enriches the blood and builds up the system, so that the disease is entirely overcome. This is the ideal treatment for catarrh and its ravages on the human system.

Mr. Ed. L. Jones, Preeceville, Sask., writes: "I suffered for some time with catarrh and dyspepsia and my nervous system became quite run down. My food disagreed with me, and I was constantly bothered with indigestion. I also suffered from frequent headaches. I tried several doctors, and was in the hospital for a time, but could get no relief from any treatment until I began using Dr. Chase's Nerve Food and Catarrh Powder. This combined treatment has done wonders for me. I never have a headache now, and am feeling fine. The Nerve Food has built up my system, and the Catarrh Powder, which I am still using, is helping my catarrh greatly. I intend to continue its use until completely cured."

"I may also state that I have found Dr. Chase's Kidney-Liver Pills splendid for weak or lame back."

This is to certify that I am personally acquainted with Mr. Ed. Jones, and believe his statement regarding Dr. Chase's Medicines to be true and correct. — Mr. George Downs, J.P.

## They Cleanse While They Cure.

The vegetable compounds of which Farmley's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. #### Are Health Laws Properly Enforced?

The agitation for better health laws for the Province is to be commended, especially so now that a large percentage of the population has been in contact with European population, with its old world diseases. But do we take enough care outside of these causes? Carelessness or indifference is and has caused a great deal of suffering to innocent people, who try to take all precautions to avoid infectious diseases, but whose lives are jeopardized because of people who through irresponsibility or religious belief neglect to call in medical aid, with the consequence that they carry these infectious diseases outside of their own immediate family and scatter them—broadcast. Another thing that should be carefully enforced is the quarantine laws. If, after careful investigation by the proper authorities, it is decided that a person or family has an infectious disease, the necessary procedure should be strictly enforced. Nothing tends to bring these laws into disregard than the fact that some people are allowed to break these laws with impunity. A few examples, with stiff punishment, would make them realize their duty to the general public. The Board of Health or the Medical Health Officer should have full authority to visit any person or place where there is a cause to suspect that infectious disease is present, and if found these places should be quarantined strictly, no matter what personal feelings may enter into the situation.

There seems to be a race for supremacy in high prices among the barnyard family, with hogs selling for \$22.25 and cows for \$116 and upwards, and butter selling for 70c a lb.; even the hen is claiming a share of the big prices, which at this time of the year does not appear just to the thrifty housewife. It hardly seems reasonable that this condition of the butter and egg market is responsible among the farmers, so that it would be interesting if a food inspector would go through some of the cold storage plants and report the result of his visit and throw some light on the present jump in prices when they should be lower than at any time of the year. It is when questions like these arise that a Board of Trade can wield some influence for the betterment of conditions by bringing such matters to the proper authorities and a remedy applied to alleviate injustice.

Members of the Dominion Parliament have announced their desire for a fat slice to be attached to their present income from the country's treasury box, for which the taxpayer is now paying \$2,500 to each member, but the modest demand is for \$4,000. Evidently our lawmakers place a very high valuation on their services, which means an increase of \$1,500 for a period of four months each year, with free railroad passes.

Provision has been made by the Dominion Government to return to Canada when possible the bodies of those members of the Canadian force serving in Siberia who have died on duty. Where it is not possible to send the remains back, provision has been made, on the recommendation of the Minister of Militia and Defence, for the establishment of a Canadian burial ground in Siberia.

### A tractor that will fit your farm—the Fordson

**YOU** can make your farm produce more—at less cost—and with less effort on your part—by using the Fordson tractor. Not only will it help you prepare your land and cultivate the crops, but it furnishes power for many other farm jobs.

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns kerosene—easy to operate and care for—practically trouble-proof.

### There's an Oliver No. 7 Plow for your Fordson

Just as the Fordson tractor gives ideal power, the Oliver plow means ideal plowing. It is scientifically designed for tractor service—and is backed by a half century of experience in making plows. It buries all trash and weeds at the bottom of the furrow—maintains an even depth of furrow—and is controlled from the tractor seat.

### A Good Motto to Remember

(Farmers cut this out)

Careful Straining and proper Cooling of Milk in water at this time of year is very essential to guard against loss. Both Dairymen and Manufacturers take big chances of loss if the Milk is not cooled just as carefully during winter months as in the summer. Do not trust to weather conditions. The Milk will not cool in the centre of the can fast enough to prevent high acidity unless proper stirring is applied.

# Ukrainians Aided by Old Bolshevik Army

Berne. — A large part of the Bolshevik first army, which surrendered several days ago to the Ukrainians, have offered voluntarily to fight the Bolsheviks and already has been in action with the Ukrainians against the Bolsheviks at Ustka, in the Pripiet region.

This announcement is made in a Ukrainian official statement received from Kovno.

A London despatch says that messages had been received there that the Bolshevik first army had surrendered to the Ukrainian army troops of Gen. Petlura, in the region of Homel. Twenty thousand rifles, thirty guns and two hundred machine guns were said to have been handed over to the Ukrainians.

London. — Large quantities of material were abandoned by the Bolsheviks when they were driven out of Bolshe Ouerki recently, according to the report of Major General Edmund Ironside, British commander-in-chief of the Archangel front, regarding the operation. His report continues:

"We captured two field guns, one thousand rounds of three-inch ammunition and some prisoners. The spirit of the troops taking part was excellent and they have done very well."

Regarding the situation, General Ironside says:

"Deserters from the Bolshevik forces have joined our own and the Russian troops. They openly show their hatred for the Bolsheviks and bear witness to the hard conditions of service. This has done more than anything else to consolidate the new Russian army."

General Ironside, in his report, mentions especially a battalion of Royal Scots with the north Russian force, as having had the hardest time of any troops in the Archangel sector, with the heaviest casualties, but displaying high morale throughout and never showing a sign of being dispirited.

## Workmen Start Revolution

### Petrograd Organization Demanding Private Ownership of Property

Washington. — Revolt of workmen in Petrograd was reported in advices to the state department from "the Russian frontier." The workmen's organization in that city, the advices said, adopted resolutions demanding the re-establishment of the constituent assembly, the freedom of the press and the right of private ownership of property.

That this action is regarded by the soviet government as a serious defection from its ranks is indicated by the fact that the Bolsheviks have found it necessary, in order to repress disorders among the workmen, to recall the Volga international battalions.

### Amend Defense of India Rules

Simla, India. — The governor general has promulgated a fresh ordinance providing that any court martial or commission may sentence a person convicted under martial law to transportation for life or ten years or rigorous imprisonment for seven years and not exceeding fourteen years. The defense of India rules have also been amended providing that no newspaper can be printed or published without previous sanction by the local government.

### State to Train Returned Men

Sydney, N.S.W. — The state of New South Wales will bear the cost of training returned soldiers for the government railway workshops. The step will be taken in order to replace men who are leaving the shops through natural causes, and also to meet contemplated extensions of the railway.

### Mission Involved in Riots

Tokio. — Special dispatches from Korea state that members of the Christian mission at Teigonari, near Seoul, clashed with gendarmes during a riot there, the officers firing upon a mob, killing twenty and wounding many of those engaged in the demonstration.

## British Pacifists' View

### Says Terms Submitted to Germany Would Not End War

Huddersfield, Eng. — Philip Snowden, former Liberal and pacifist member of parliament, in an address at the annual conference of the Independent Labor party, said that the peace terms to be submitted to Germany were not peace terms, and would not end the war. "The new war," he continued, "will be a war of systems and classes, in which the democracies of all nations will be ranged on one side against the hereditary oppressors and exploiters. We are not a party of violence. An intelligent and unselfish democracy need not in a country like ours, resort to methods of violence to attain its aims. If revolution has to be achieved in Great Britain by violence, it will come in that way because of the resistance of the old order to the new birth."

## Riots at Hamburg

### Affected the Unloading of Food Relief Ships for a Time

Berlin. — There have been serious disturbances at Hamburg during the week end. A mob plundered the harbor quarter and clashed with the police, several people being killed and wounded. A dispatch to the Vorwaerts says there was a regular battle in the suburbs of St. Paul, west of the city.

A policeman was killed and several others were wounded, but the rioters suffered worse than the officers.

The rioting was renewed, arms being distributed to mobs in St. Paul. Several police depots were attacked by the mobs and one was captured.

London. — The rioting at Hamburg affected the unloading of food relief ships for a time, according to official reports received here, but the work was proceeding with voluntary strike breakers, composed mostly of merchants and men of the professional classes, who realize the vital needs of getting the food unloaded. Until the present outbreak the navy had been able to control the German laborers, although they had been unwilling to work.

### Gave Up Task

Paris. — The council of four decided to discontinue its hearings on the Chinese and Japanese claims to rights in Shantung province and agreed merely to terminate Germany's rights in China in the peace treaty, leaving the settlement of the respective rights of China and Japan to the German concessions until a later date.

This agreement is subject to the approval of China and Japan, whose delegations have sent cablegrams to their governments and express the belief that their governments will agree.

### May Propose New Plan

London. — A dispatch to the Exchange Telegraph company from Amsterdam asserts that the German peace delegates have been instructed to propose at Versailles a plan for a league of nations to replace the plan adopted by the peace conference in Paris.

The dispatch adds that the German plan was drafted mainly by Count Bernstorff, former ambassador to the United States, M. Erzberger, Prof. Schnecking and Carl Kautsky, one of the socialist leaders.

### Want Annexation Cancelled

Paris. — The Walloons of Prussia have sent a dispatch to M. Clemenceau, chairman of the peace conference, requesting that their annexation to Prussia be cancelled. The message to M. Clemenceau follows:

"The Walloons of Prussia, feeling great anxiety on account of the news lately published in the press, earnestly request you to decide for the pure and simple disannexation of all the Walloon districts in Prussia. The inhabitants of cantons not Walloon but indispensable to Belgium, might be consulted by means of a referendum, as will be the case with the population of the Saar basin."

## Rumanians Advance

### Acting Solely Under Orders of the Allies

London. — According to authoritative information, Rumania's advance into Hungary is progressing excellently. Rumania is acting solely under the orders of the allies and purely with the object of stemming the Bolshevik advance.

No permanent occupation of territory is contemplated without sanction of the peace conference. While the danger of Bolshevik attack on Rumania is not entirely removed, it is believed that the position is much improved. The situation in Rumania grows brighter daily. The spirit of the army is magnificent and the continued arrivals of food, equipment and stores is having great effect.

Berlin. — The soviet government in Hungary has asked for a suspension of the Rumanian offensive and the arrangement of an armistice, according to Vienna reports received here. One of these reports quotes the Neue Wiener Journal to this effect. The dispatch adds that the government of Bela Kun has announced its readiness to retire in favor of a socialist cabinet.

## Tyrolean Want Independence

### Complain That Italy Wants to Swallow Up Their Country

Paris. — Tyrolean claims to recognition as an independent nationality are set forth by the delegates of the Tyrolean national council in Switzerland, Walter Lutzel and Dr. Otto Guggenberger, in a lengthy memorial. The hardy mountaineers of the Tyrolean Alps complain that Italy wants to swallow up their country, which was part of the former Austrian empire and furnished the former Emperor Charles' army with one of its crack regiments, the Tyrolean sharpshooters.

### "Black Watch" The Best Black Plug Chewing Tobacco on the Market

#### Japan Is Resentful

Tokio. — In editorial comment on the clause to secure a place in the covenant of the league of nations, the Japan Times declares the national disappointment of Japan verges upon disaffection and affords opportunity for sensationalists to stir up anti-white prejudice. Representative Japanese regard the Paris decision as a snub and humiliation, the newspaper says. It continues:

"The refusal of the august congress of white peoples to accept the principle of equality of non-whites will probably erect a perpetual barrier to the harmonious comingling of the races toward which it was believed the world was tending. It can only tend to accentuate racial prejudices."

#### Australia Faces Coal Shortage

London. — Owing to the quarantine due to the epidemic of influenza, a serious coal shortage has resulted in Australia. There are only three weeks' supply of fuel on hand and many industries are threatened with having to close down.

An ultimatum was sent by Acting Premier Watt to the states of Queensland, West Australia and Tasmania, ordering the authorities to repeal their quarantine restrictions or the premier would transfer the tonnage employed on their coasts to more remunerative trade routes.

#### Bremen in State of Siege

Berlin. — The situation in Bremen has become serious. Advices received here state that a state of siege has been proclaimed by the senate and that the publication of all newspapers, pamphlets and placards has been prohibited. Private persons are not allowed to use the telephones or the telegraph, letters are being censored and the restaurants, theatres, moving pictures houses and schools have been ordered closed.

#### Gift of Airplanes

Melbourne. — The federal government of Australia is about to establish immediately a regular air force. It is estimated that the initial cost will be \$2,400,000, and the annual outlay for pay, maintenance and general cost will be about a similar amount. It is stated in connection with the above announcement that the imperial government is making a free gift of one hundred of the latest design aeroplanes and balloons to the commonwealth.

# Italy Must Forego Claim to Fiume

London. — With reference to the Italian claims the Associated Press learns that under the treaty of London, Italy was entitled to Trieste, Pola and part of Dalmatia, but Fiume was to go to Croatia.

Great Britain has advised Italy in her own interests to forego some of her claims, but if the Italians insist on their rights under the treaty, Great Britain and France are prepared to honor their signatures, in which case, as pointed out to Italy, Fiume must go to Croatia.

It is understood that President Wilson issued his statement on his sole responsibility, and that Premier Lloyd George and Premier Clemenceau are still actively seeking to bring about an agreement.

It was learned at Italian headquarters here this evening that the Italian delegates were first apprised of President Wilson's statement when it appeared in the afternoon papers. Premier Orlando at once sent a note to Premiers Lloyd George and Clemenceau asking them if they thought it possible after the publication of this document the Italians could remain in the peace conference. A reply had not been received up to a late hour.

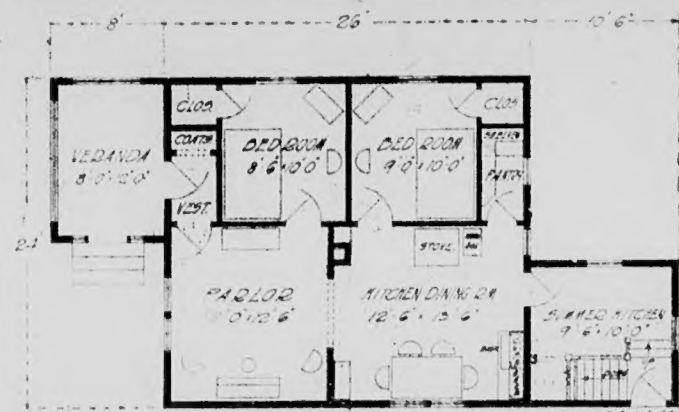

In the statement issued by President Wilson explaining his position on the Adriatic question he declares that Fiume cannot become a part of Italy.

The president points out that every condition concerning the Adriatic settlement has been changed since Italy entered the war on the promises of the pact of London, the Austro-Hungarian empire having disappeared. He notes that new states have been created for which Fiume is the natural outlet to the sea.

The president also contends that the strategic necessity pleaded in behalf of Italy's claim to the Dalmatian Islands no longer prevails, as the Austrian naval menace has ceased to exist.

In issuing his official statement on the Adriatic question, President Wilson let it be known that he desired once again to call attention to the fact that there was certain well defined principles which have been accepted by the peoples of the world as the basis for a lasting peace. The United States delegation simply recalled this in order that there should be no deviation from these principles.

## A Moderate Priced Bungalow

This is an especially attractive, moderate-priced bungalow, easily heated, where the kitchen, dining room and parlor can be used, when desired, as one room. There is good cupboard space, also sink and large draining board. The front vestibule with a place for coats, the summer kitchen having stairway to the cellar, are points of interest. It will be noted that the chimney is in the centre of the house. Many people believe that a cleaner chimney and better draught are thus afforded.

## Worthy Your Attention!

At the annual meeting of the Davidson, the managing Director announced that the Directors had decided to place Davidson on a producing basis of long time.

An up-to-date minute mill is to be installed on the property with a capacity of 150 tons, and judging from the estimate of one already blocked out and the new one body recently uncovered on the 300 foot level—the mine should become one of the foremost producers in the Porcupine Camp.

Davidson is one of the very few substantial issues on the board today selling below par. Davidson offers a lucrative opportunity for a speculative return and yet intrinsically is an out-and-out investment of the first order.

### BERGEN-NICHE VALLEY

Geo. Rhodes has more to happen him than anyone we know. One winter he froze his big toe and Dr. Weart took it off; his son, Hervy, was killed by a saw at Gerhard Pearson's mill; his youngest son died with the flu in France less than a month ago; he was hauling logs at the mill and got a rap on the cheek that would have finished an ordinary man; a few weeks ago he was helping to haul some machinery and thrust his arm out of place.

Mr. Adam Fawcett, who used to preach at Zella and Westcott, is in Jasper, Ark.

Ivan Erickson has a small son in his house. I forgot to ask whether it came from Eaton's or Christie Grant's, but Mrs. Johnson was there and all are well.

Rev. Mr. Gugin is helping with a

few meetings at Bergen. We pray that it may be a success.

March 27th was Mr. and Mrs. Edwardson's first wedding anniversary. The Ladies Aid and friends met at their home to celebrate the event, rejoice with them and wish them God speed and many happy returns of the day.

There was one there who had no wedding garment on and borrowed a coat, and while he was enjoying the music two of the ladies came and thrust a fat envelope into his hand and said, "We want a speech—a good one and long." My friends, who can get up and give a good long speech on a moment's notice? The envelope contained an offering from the mill men and outside friends.

The following program was given: Opening song; Scripture lesson, Rev. Mr. Edwardson; solo, Carl Johanneson; duet, Mr. and Mrs. Edwardson; duet, Mrs. O. T. Johanneson and Mrs. Haug; solo, S. Sande.

### Local Masonic Lodge Visits Red Deer

A number of the officers and members of King Hiram Lodge, A. F. & A. M., attended a lodge of instruction at Red Deer, held on Friday night last. Those who attended were: Bro. Geo. Smith, W. M.; Bros. A. Brusso, J. Good and Geo. Liesemer, P. M.'s; Bro. George Harrison, J. W.; Bro. T. Thompson, secretary; Bro. W. F. Sick, chaplain; Bro. E. Morrison, S. D.; Bros. W. Durrer, E. E. Freeman, and J. W. Phillipson. There were several other visitors from different towns in Central Alberta.

The members of King Hiram were called upon to exemplify the third degree of the Canadian work, which they carried out so well that they were complimented by the Grand Master and Grand Lodge officers present.

After the work of the evening had been completed the visitors were entertained at a splendid banquet and spent a social time. They all returned on the early morning train on Saturday, a tired but satisfied bunch.

### AROUND THE TOWN

Dr. Moore and family of Olds motored to town on Saturday evening.

Rev. D. H. Marshall of South Calgary called on friends in town on Monday.

Mr. and Mrs. W. G. Liesemer were visitors at Calgary on Friday and Saturday.

Mrs. Harry Pearson and Mrs. E. J. Blaine will have charge of the Red Cross lunch on Friday afternoon.

Miss McLean and Miss Dorothy Orde of the Union Bank staff, took in the sights of the city Saturday.

Lieut. and Mrs. A. J. Batt, who have been visiting with Mr. and Mrs. E. G. Reitzel, left for their new home at Sheffield, England, on Monday.

Rev. J. D. Fenner, who has been supplying for the Evangelical Church, has been appointed to the Regina charge and expects to leave shortly.

Messrs. Berscht & Vanhorne are going ahead with their big new garage next to the Union Bank. The material is on the ground and the foundations are now being put in.

It has been found that it will be impossible to get the rest room, to be provided by the Women's Institute, ready for use by May 1st, but it will be ready by Monday, the 17th.

A. W. Fulsom, the travelling agent for the Willys-Knight auto, who is well known in town, has been appointed

wholesale salesman for the Great West Motors, Limited, Calgary.

The Women's Institute meet at the home of Mrs. Norman Clarke on Thursday, May 8th, at 2.30 p.m. Report of convention and other business of importance will be taken up. All ladies are cordially invited to attend.

Rabekah Lodge I.O.O.F. will hold a grand public ball in the Lodge Hall, Leuzler Block on Friday, May 2nd. Dancing will commence at 9 o'clock. Good music and lunch will be provided. Admission \$1.50, ladies free.

The Ladies' Aid and Women's Missionary Society of the Evangelical Church will give a Mother's Day programme on May 11th, at 3 p.m. Various addresses and musical selections will be given. Special offering under the auspices of this society. A cordial invitation is extended to all. J. D. Fenner, Pastor.

Tonight, Thursday, May 1st, Lesber Grossmith will appear at the Opera House. The curtain will rise promptly at 8.15, and these who are fortunate enough to be present will experience two hours of fine piano-playing, extremely clever character-sketches, monologues—a programme plentifully sprinkled with clean wit and sparkling humor. Prices: Adults 75c. Children 50c.

J. E. Liesemer has completed the purchase of part of the lots owned by J. C. Stevens, corner of Osler and Railroad streets. Mr. Liesemer will erect an office building 15 x 50 feet on this lot. Mr. Stevens will build a fine brick garage, with rear entrance on the balance of the property in the near future.

The interior changes in the residence of Mr. R. A. Kendrick, formerly the Hembling home, are almost completed. The building has been completely remodeled inside, and contains the latest and most up-to-date requirements of a modern home. The work reflects great credit on E. Morrison, the contractor, and Bert Booker, the artist who had charge of the painting.

Mr. Alex. Robertson of Westcott came to town last week and incidentally handed over a cheque for \$29.65 to the Red Cross Society. This cheque was his whole commission on his Victory Bond sales last fall which he has just received and so far is the first one to donate his earnings from this source to the Red Cross.

Rev. J. S. Ferguson, formerly pastor of Knox Presbyterian Church, Didsbury, and brother of Miss M. A. Ferguson, has resigned his pastoral charge at North Bay, Ont., where he has been located for some years, to take a much needed rest. Before leaving, his congregation showed their appreciation of his services by presenting him with a cheque for \$1,000. During the last month of his pastorate Mr. Ferguson baptized over 100 persons, and 80 new communicants were received into the church at the last sacrament. Mr. Ferguson's many friends in and about Didsbury are very glad to hear that success has so crowned his efforts, and they hope he may soon be able to again resume his duties.

The death of Mrs. A. Ryckman of East Didsbury occurred early on Monday morning after a short illness, although she had been ailing for some time. Mr. and Mrs. Ryckman have lived in Didsbury for a good many years during which time they have made many friends for themselves and whose sympathy will be extended to Mr. Ryckman, Sr., who survives his wife, and their family. Besides her husband Mrs. Ryckman leaves seven children to mourn her loss: Mack of Didsbury; George and Lloyd who are living in the States; Mrs. J. Davidson, Kinsella, Alta.; Mrs. A. Clemons, Brown City, Mich.; Mrs. John Haman, Detroit, Mich.; and Mrs. A. D. Gritman (Tessie) Spokane. The funeral took place at Didsbury cemetery on Wednesday afternoon.
